Context for Learning

In this mini series of lessons, pupils will create a short movie trailer for a fictitious super hero movie using a selection of pre-prepared clips taken from YouTube. In this project pupils will explore how a movie develops from a storyboard to on screen and how music and sound can affect the feel of a movie.

Learning objectives (the intended learning)

- Create a movie from a selection of short clips

Learning Outcomes (how learning / progress will be demonstrated)

All	Will create a movie from a selection of short clips.
Most	Will create a movie from a selection of short clips which matches their storyboard and includes appropriate text.
Some	Will create a movie from a selection of short clips which matches their storyboard, uses consistent text and transitions and includes an appropriate background track.
